OVERVIEW: Following an extensive renovation of the former Hyatt Regency Irvine, Hotel Irvine, is a new Lifestyle Hotel with a sleek and vibrant modern look delivering a contemporary hospitality experience that provides guests with extra special amenities and services, including an innovative “HI” service experience and technological enhancements such as the “Reach Me” personalized text concierge. Additional highlights include an open, vibrant and multi-functional lobby designed as an epicenter of both business and social activities, as well as an authentic collection of independently minded culinary offerings for locals and guests alike – all to bring casual fun, communal interaction and entertainment to guests.

LOCATION: Conveniently located less than three miles from John Wayne Airport, Hotel Irvine is at the epicenter of Orange County in coastal Southern California at the corner of Interstate 405 and Jamboree Road in Irvine. Ideally located, the hotel is 10 minutes from beach communities, a short drive to world-class shopping at Fashion Island® and Irvine Spectrum Center® and less than 30 minutes from some of California’s best-loved attractions, including Disneyland Resort and sporting venues such as Angel Stadium of Anaheim and Honda Center.

With over 100 multinational companies headquartered in Irvine, Hotel Irvine is located at the heart of the city’s business district. Additionally, the region features an abundance of outdoor activities – from hiking and mountain biking through neighboring Irvine Ranch® to nearby ocean activities such as surfing, kayaking and sailing.

**ARCHITECTURE/
DESIGN:**

Masterminded by Brayton Hughes Design Studio, the newly renovated Hotel Irvine features a vibrant contemporary look, with bold pops of color evoking energy and youthful appeal. A color palette of sands, creams and ivory melds with vibrant hues of chrysanthemum, mandarin orange, brick red and russet, infusing drama and energy and providing a unifying theme throughout the hotel.

Lending a unique appeal to the public spaces are expansive pieces of abstract modern art created by WRAPPED Studio, which began as a paper company and now produces handcrafted custom prints digitally reproduced on canvas.

Carefully designed pods – with bright orange chairs equipped with multiple outlets, USB ports and easy lap top set-up – are strategically situated throughout the lobby and bar areas to allow for both important mingling and just getting down to business.

Anchored by a custom light fixture made with whimsical hanging steel pendants in varying shapes that glow from the inside out, the lobby epitomizes the hotel’s modern design aesthetic. This dramatic lighting lends contrast to an expansive piece of organic plant art – comprised of 14 synthetic jade plant forms – inspired by elements found in nature and adding texture and depth to the sleek, modern architecture. Throughout the hotel, a variety of live succulents play off this distinctive piece – both in public areas and guest rooms.

The adjacent Red Bar and Lounge is like a jewel box of cut glass and bright colors – highlighted by a distinctive frosted red bar top and maple wall paneling with polished steel accents. Nearby, there’s a TV lounge with a jumbo 10-foot multi-screen, as well as an outdoor deck with weekend DJs.

MEETINGS & EVENTS:

From customized corporate retreats and awards banquets to “oh wow” industry conferences to business meetings and trade shows, Hotel Irvine’s state-of-the-art conference facilities span more than 50,000 square feet of indoor and outdoor space and provide flexible event options to accommodate a full spectrum of business needs. Like the rest of the hotel, event venue spaces have been artfully renovated with a hip and abstract motif with individual controls for heat/air conditioning, sound, music, telephones, multiple electrical/microphone outlets and audio/visual equipment.

An interactive touch screen display board near the lobby and meeting space allows meeting attendees to touch the event they are looking for, and arrows will point them in the right direction. Additional display monitors are situated around the hotel showcasing events happening that day.

This transformed collection of venues includes:

The Grand Ballroom: Ideally suited for a wide variety of events from theater-style arrangements to banquets, receptions and classroom set ups. Accommodating up to 2,100 attendees for an industry-sized trade show, the Grand Ballroom spans nearly 15,000 square feet and is one of the largest ballrooms in Orange County. With its own dedicated foyer, this elegant venue can be divided in to as many as seven sections with capacities ranging from 45 to more than 600 each.
